## A Pictorial Guide to Lining Applique Patches - continued

**Alternate basting method:** After pinning the white cotton fabric in place on the right side of the fabric, turn your work to the back side. Baste directly on the drawn pattern line. Then place a second line of stitches  $\frac{1}{4}$ " inside the drawn line. Be sure to use white thread for this second basting, as it will remain in your work to secure the lining. Turn your work to the right side. Remove the outer most basting thread. It will be the one that is directly on the drawn line of the pattern. The holes will remain. Trim between the inner basting thread and the holes. This will be approximately  $\frac{1}{8}$ " outside the inner most basting thread and  $\frac{1}{8}$ " inside the holes.

**Step 5:** On the right side of your work, place the applique fabric over the lining for that patch.

**Step 6:** Turn your work to the back side. Back baste following your drawn pattern. [See Pictorial Guide to Back Basting.](#)

**Step 7:** Turn your work to the front side. Applique the patch in place using the needle turn method.
